

Print PADS Lib.

At last: Document your PCB-decals and - parttypes:

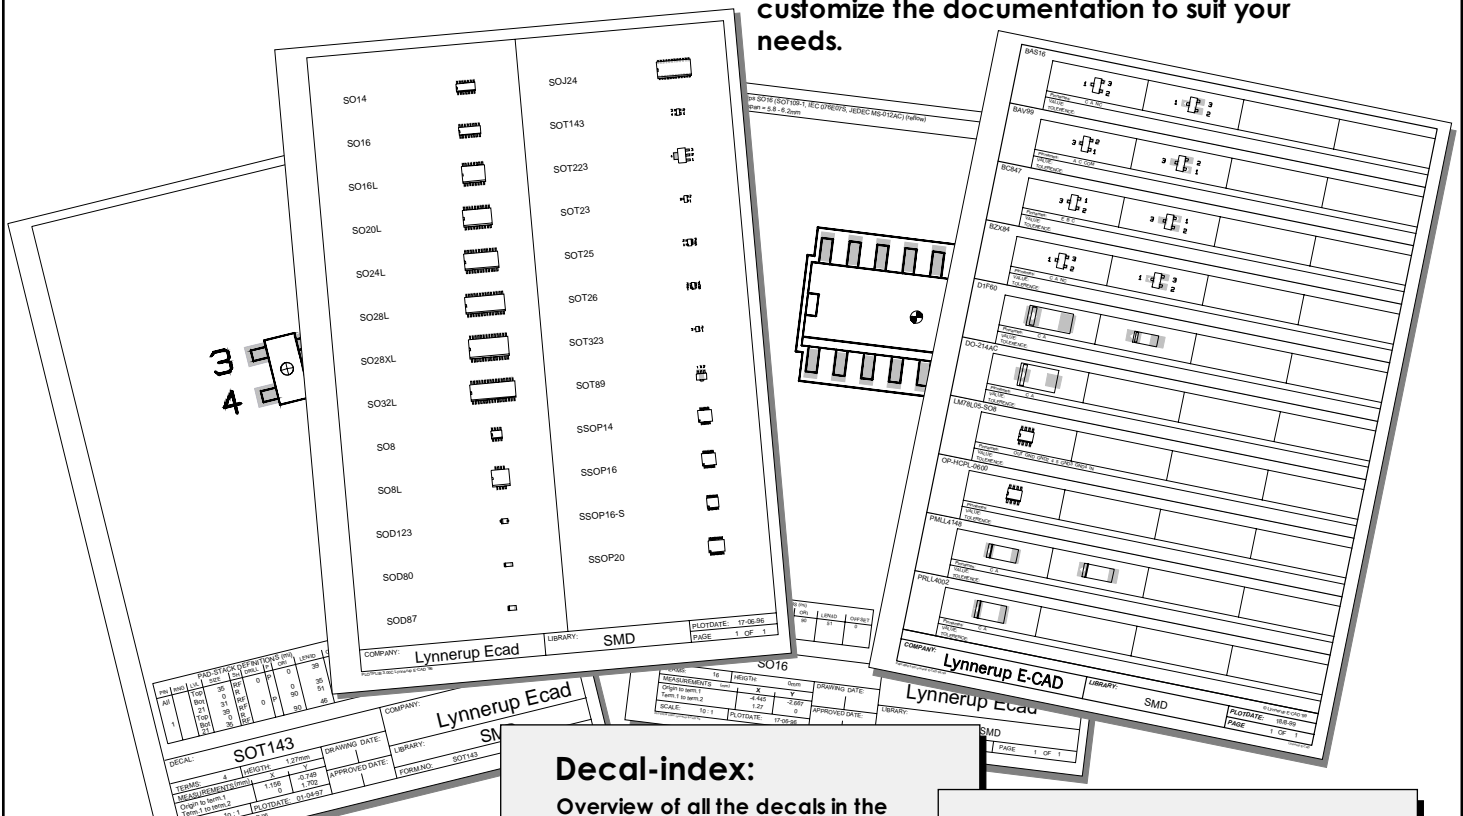

Print PADS Lib. will in few minutes print all your decals and parttypes on your printer. Just export the library to an ASCII-file and Print PADS Lib. prints all the parts you want.

Print PADS Lib. will also let you document the decals and parttypes used on a PCB. Just

enter the name of the PCB-ASCII file.

Print PADS Lib. also adds a new feature to your library: Add comments to the decals and watch them appear on the documentation.

Print PADS Lib.'s complex setup lets you customize the documentation to suit your needs.

Decal:

Complete documentation for each decal:
